Staff Mobility for Teaching

Staff Mobility for Teaching is the field of activity, for a staff who are obliged to give lectures in a higher education institution with ECHE in Turkey or for a staff who are obliged to give lectures in a higher education institution in a partner country, that enables it to carry out academic / educational activities jointly with the other institution.

Staff Mobility for Training

Staff Mobility for Training is the field of activity, for a staff who has been employed in a higher education institution with ECHE in Turkey, that enables it to get training in one of the partner countries.

Staff participating in the activity must meet the following minimum requirements:

Staff who want to perform staff mobility must be the staff who have been employed full / part-time in the coordinator institution or partner country higher education institution and are actually working in that institution. It is not required for the staff employed in the higher education institution, the staff who have a contract with the higher education institution can benefit from the activities. Staff employed in a different institution but are working in another higher education institution on a contractual basis apply to the mobility in the institution where they actually work, not in the institution employed. Since there is no contract between the personnel employed in the higher education institution through service procurement and the higher education institution, these persons cannot benefit from personnel mobility.
